

This system is the starting point for a high quality Scantronic i-ON16 wireless intruder alarm.

Two PIRs are the minimum requirement to cover the small home or office and the door contact will start the entry timer if the system is to be de-activated via the keypad. The Scantronic 760ES wireless external sounder allows a wire free installation.

AB Security being authorised installers for Scantronics and a member of their Touchpoint Partner Programme offer this system with the following.

- Scantronic i-ON16 Zone Wireless Home Security System
- Scantronic Passive Infra-Red Detector and Transmitter x 2
- Scantronic 4 Channel Door Contact Transmitter
- Scantronic External Wireless Radio Sounder
- Unswitched spur with 3a fuse
- 7.0ah 12v Back Up Battery
- Full System Installation and Commissioning to EN 50131
- **£499.00** Supplied and fitted with no hidden extras.
- Plus 1 year comprehensive maintenance.
